

LE POLVERI

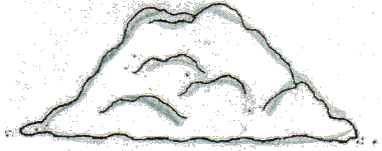

Le polveri che abbiamo utilizzato nei nostri esperimenti sono prodotte dalla frantumazione di *solidi*, quindi hanno subito un trasformazione.

Andiamo a scoprire da quali solidi derivano le polveri che abbiamo portato a scuola

SOLIDO	POLVERE	CARATTERISTICHE
 DRUPA	 CAFFE'	Marrone Finissima Aromatizzata Leggera
 BARBABIETOLA DA ZUCCHERO	 ZUCCHERO SEMOLATO	Bianca Brillante Appiccicosa Granulosa
 PANNOCCHIA MAIS	 FARINA DI MAIS	Gialla Granulosa
